

**EN** 

CODE: **AWZ577** v.1.0/IV

NAME: LB8/0,3A/PTC fuse module

## **DESCRIPTION**

The fuse module is intended for dividing power in low-voltage alarm systems (power distribution) that require voltage within the range of: 10V ÷ 30V DC. It contains two power inputs: a screw connector and a DC 5,5/2,1 outlet and eight power outputs AUX1+AUX8 which are independently secured with PTC0,3A polymer fuse. An activation of the PTC fuse is indicated by an appropriate LED going out: L1 for AUX1, L2 for AUX2 etc. Additionally, each output is secured by a varistor which protects the PSU and the receivers against surges in the power circuit.

## **SPECIFICATIONS**

| Supply voltage                 | 10V ÷ 30V DC                                                      |
|--------------------------------|-------------------------------------------------------------------|
| Output voltage                 | U <sub>AUX</sub> = U <sub>IN</sub> (equal to supply voltage)      |
| Current consumption            | 9 mA÷ 60 mA @ U <sub>IN</sub> = 10V ÷ 30V DC                      |
| Number of power inputs         | 2: a DC 5,5/2,1 outlet or a screw connector                       |
| Number of power outputs        | 8 (AUX terminals)                                                 |
| Protections against:           |                                                                   |
| - a short circuit SCP *        | - 8 x 0,3A PTC                                                    |
| - an overload OLP              | - 8 x 0,3A PTC                                                    |
| - a surge                      | - varistors                                                       |
| LED indication                 | Green LEDs L1 ÷ L8 – AUX1 ÷ AUX8 outputs status                   |
| F1 ÷ F8 fuses                  | 8 x 0,3A PTC                                                      |
| Operating conditions           | Il environmental class, -10°C ÷ 50°C                              |
| Dimensions                     | 124 x 43 x 21 (WxHxD)                                             |
| Fixing                         | a mounting tape or dowel pins x2 (holesØ3mm)                      |
| Connectors:                    |                                                                   |
| - of power output              | - screw connectors Φ0,41÷1,63 (AWG 26-14)                         |
| - of power input               | - a DC 5,5/2,1 outlet or a screw connector Φ0,41÷1,63 (AWG 26-14) |
| Net/gross weight               | 0,051kg / 0,078kg                                                 |
| <b>Declarations</b> , warranty | CE, RoHS, 2 year from the production date                         |

<sup>\*</sup> Using power supply unit with too low current efficiency may cause (in the case of a short-circuit at one of the outputs of the module) temporary power loss at other outputs.
